

Nov. 20. 1837.

Monday morning.

Dear Debora,

I received your letter with great satisfaction and the reason why in special was this, we kept tea waiting for you Saturday night a long time not having the least idea but that you would come. Certainly you have been gone 11 wks, but I suppose the term of Mr Lord's is a week longer than Mr Emerson's used to be. It is so very long ~~that~~ since I have written that I do not feel as though I could tell you any thing. I don't know but you must wait till you come, but I will try to state a few facts. I hardly know when I wrote last. The 6th of this month I went out to Dedham & passed the night & came in with E. Sampson & Aunt Mary. Selina is very comfortable situated. The same night I came in town I went out to Mrs Marks & passed the night. She has quite a large family but every thing seems to come fair & easy. Since then Eliza with Sampson has been here & staid several days, but was sick most of the time. Miss Penolace left us a week ago to day, on a week Saturday, & Ellen Bailey not being very well went to Nan Secor the same day & is there at present so we have a very cosy time. As to matters connected with the Report I have no time to detail them. It would take me all night. Suffice it to say that Mary Parker is acting very weakly & the rest very much so. But when we meet you shall know all. Can't you make some arrangements in N. B. relative to the sale of the Report. Would not somebody undertake to take 25 copies say for sale there

Try to ~~do~~ manage this if you can. Aunt M. bids me
say she must go home on Wednesday next, but hopes you
will be out to Weymouth soon. She would have
written but for want of time. Kildeth was here last
night & staid till near 11 disputing as usual.
I must close this for I have not so much time as I
thought. I shall not write again but shall
look for you next Saturday morning at
the early car time. Do not fail us. Give
much love to the Emersons, Abby &c.

Alas poor Lovejoy! There is great feeling
among the brethren.

Yrs ever Anne.
